Barnwell – Satellite – Monday – Thursday – 8:30am – 5:00pm

Allendale & Bamberg (Denmark, SC) – Satellite – Tuesday & Thursday – 8:30an – 5:00pm

Calhoun (St. Matthews, SC) – Satellite – Wednesday – 8:30am – 5:00pm

Membership. If a Local Board decides to form a Youth Standing Committee, the committee must include a member of the Local Board, who chairs the committee, members of community-based organizations with a demonstrated record of success in serving eligible youth, and other individuals with appropriate expertise and experience who are not members of the Local Board. The committee members appointed for their experience may bring their expertise to help the committee address the employment, training, education, human and supportive service needs of eligible youth, including out-of-school youth. Members may represent agencies such as education, training, vocational rehabilitation, health, mental health, housing, public assistance, and justice, or be representatives of philanthropic or economic and community development organizations, and employers. The Youth Standing Committee may also include parents, participants, and youth.

Communities forming Youth Standing Committees will want to think strategically about the resources, both monetary and programmatic, a potential member can bring to the table. Critical to the success of a standing committee is bringing members together who reflect the needs of the community and can help bring both planning and resource assistance, and provide links to intermediaries that broker connections between youth and networks of employers. When recruiting members, devote special attention to parents, employers, and youth to gain their perspective of what is needed for youth and how it should be delivered.

ETA is hosting a year-long webinar series called "Enough is Known for Action" focused on key WIOA youth program priorities including OSY, work experience, credentials, and youth committees. For additional information on the Youth Standing Committees webinar, refer to the "Enough is Known for Action" webinar on Youth Standing Committees found at: https://www.workforce3one.org/view/5001513351722619099/info. The "Enough is Known for Action" webinar series can also serve as an excellent training resource for youth committee members.

7. **Work Experience Expenditure Requirement.** Title I of WIOA includes a new requirement that a minimum of 20 percent of local area funds must be spent on work experience. As stated in TEGL No. 23-14, program expenditures on the work experience program element can be more than just wages paid to youth in work experience. Allowable expenditures beyond wages can include staff time spent identifying potential work experience opportunities, staff time working with employers to develop the work experience, staff time spent working with employers to ensure a successful work experience, staff time spent evaluating the work experience, participant work experience orientation sessions, classroom training or the required academic education component directly related to the work experience, and orientations for employers.

8. **Partner Programs**. Given that WIOA broadens the required program elements and focuses on a more difficult to serve population, partnering is even more critical under WIOA. A primary goal of WIOA is to bring together, in strategic coordination, the core programs of Federal investment in skill development. WIOA encourages further alignment and leveraging, as appropriate, of the Title II Adult Education and Family Literacy Act and the Title IV Vocational Rehabilitation program resources and policies. At a State level, the
